Why Instruct Us

Here at RG Law, we are a team of experienced and diverse conveyancers from varying backgrounds, working together to deliver simple, effective conveyancing advice to public sector organizations hand in hand with exceptional customer service. We provide an approach to our customers that is friendly, relatable, and accessible at all times.

We believe in providing a paperless service as far as possible and engaging online with our customers. Whenever possible, we seek to reduce our carbon footprint.

That said, there is real value to a telephone conversation. Having an actual conversation goes a long way and helps us build a great relationship with all our customers and better understand their organization. This is vital in delivering bespoke customer service and meeting expectations.

We are also open to face-to-face meetings, which is made even easier by using Zoom or Microsoft teams. We, therefore, offer a blend of these different communication options, but it all comes down to what our customers prefer. Our service is bespoke to each customer.

All our ongoing cases are also linked to an online portal. This confirms key information about the main stages of each transaction and allows our customers to track in real-time, the stage their transaction has reached.

Our new and modern case management system, LEAP, allows our customers to track each matter's progress through a dedicated and live app. Having an app to help track the progression of each matter is also crucial in helping us regularly update our customers.
