TOP 3 CUSTOMER QUESTIONS, ANSWERED...

HOW DOES DIRECT AWARD WORK?

Choosing to direct award is always down to the customer to decide.

To help them know if it's the best approach for them, ask if they meet ANY of these criteria...

- ✓ The customer is satisfied they can identify Bytes offers best value for their requirement
- ✓ Bytes is able to supply the goods/services within the customer timescales
- ✓ Bytes scored the highest mark for the price/quality in the evaluation
- ✓ The goods or services required are exclusive to Bytes
- ✓ The continuity of existing goods or services from Bytes

Are any of those boxes ticked by the customer?

If yes, they can direct award without needing to do a further competition or get three quotes – **it's as simple as that!**

Please note, the customer only has to tick ONE
