

Six Degrees Overview

At Six Degrees we're all about enabling your success through technology. Our mission, vision and values are aligned to taking you on a digital journey that will enable your success – whatever that looks like for you.

Our people are who differentiate us, and at every step of your journey you'll work with skilled, dedicated experts whose number one priority is driving the best outcomes for you.

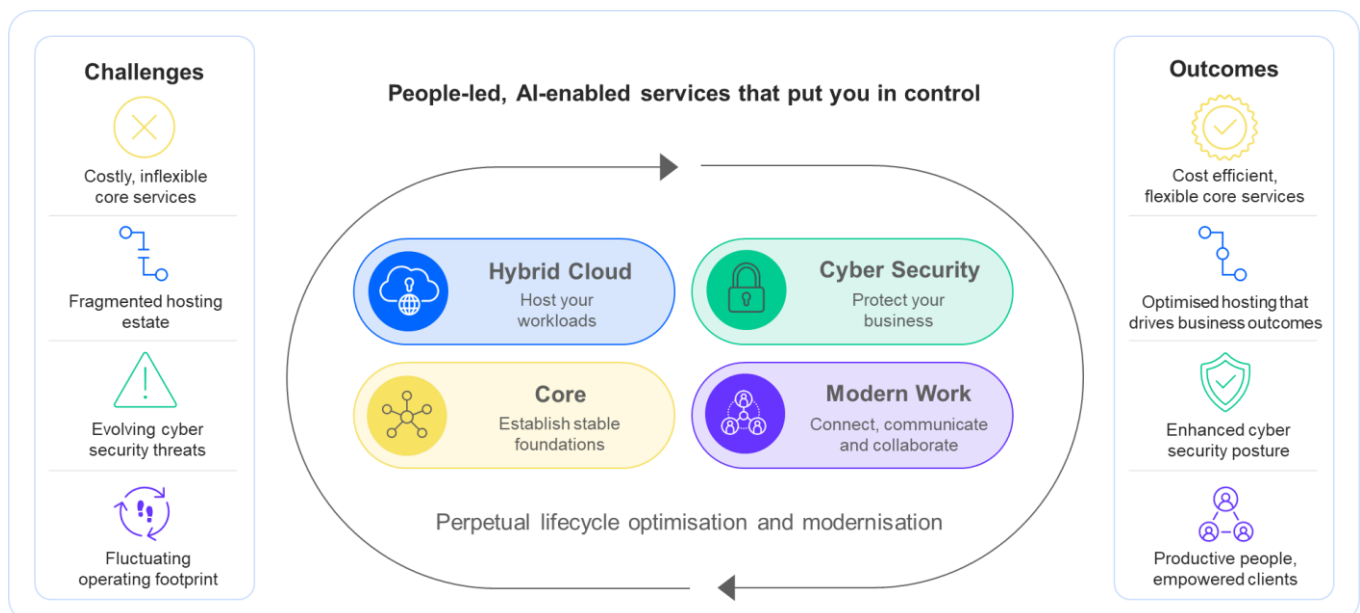

We do everything possible to arm our people with the knowledge, support and freedom they need to make the most of our best-in-class technology, and we empower them to make the best decisions every day for you and your business.

This is how we differentiate ourselves in a crowded market: best people. Best technology. And client-first, always.

How we support our clients

Organisations today are all facing competing priorities in a tough operating landscape, such as the examples outlined in the image below. We offer a portfolio of people-led, AI-enabled services that are aligned to resolving your business challenges and driving your success.

And we continually optimise and modernise across our portfolio, because we want our clients to be investing in outcomes that evolve as they do.

Our portfolio helps clients realise their objectives and provide real Return on Investment (ROI). The following statistics demonstrate the ROI you could see by working with Six Degrees:

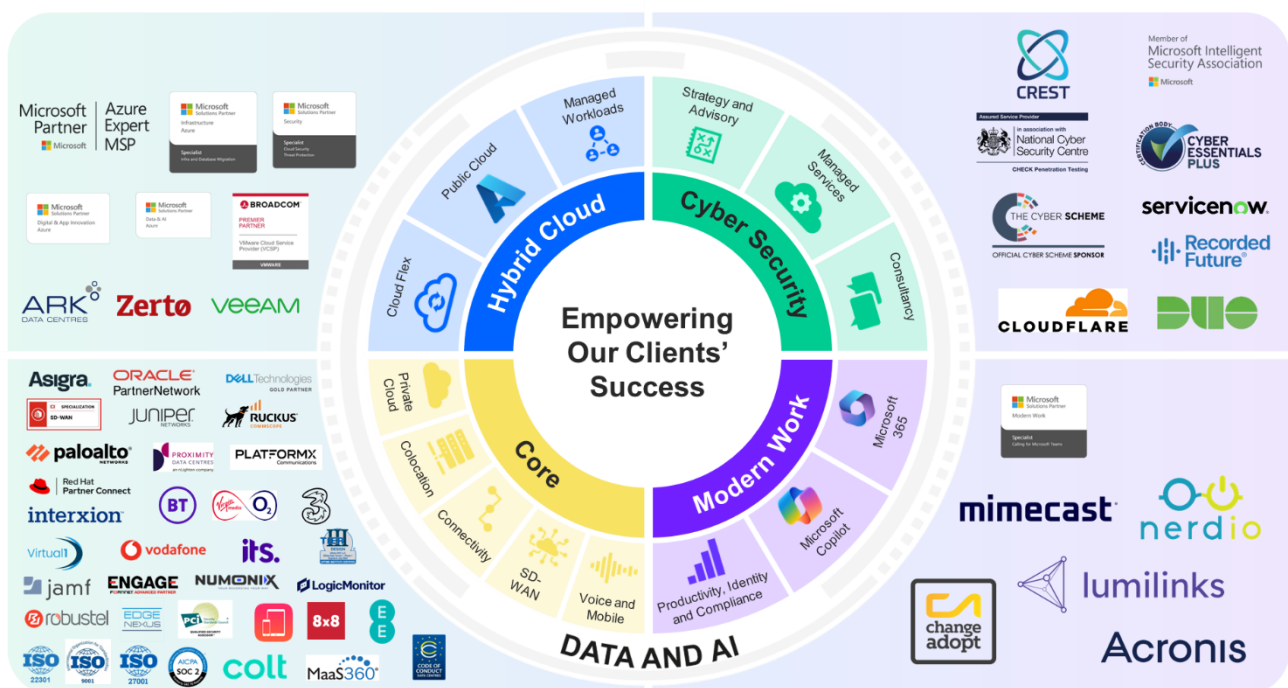

- According to Accenture, organisations that invest in robust cyber security measures reduce the risk of cyber-attacks by up to 72%.
- According to Forrester, organisations leveraging the right cloud hosting platforms see an average of 3.2 times higher return on investment compared to using traditional on-premises infrastructure.
- According to Microsoft, organisations leveraging Microsoft 365, including Copilot for Microsoft 365, have reported a 30% increase in employee productivity.

Your success today lives and dies on how you leverage technology, and we're here to take you on a journey to digitally empowering your business.

Our capabilities

Throughout our portfolio we are dedicated to empowering the best people with the best technology. We have the credentials and partners with best-in-class technology vendors that support our wide range of capabilities designed to enable end-to-end digital services for clients. Our capabilities are outlined in the image below:

How we help clients realise their goals

Our five-step methodology is proven to deliver results for your business wherever you are on your digital journey.

- We assess your organisation today to understand how your technology estate aligns to your business KPIs.
- We align your priorities and objectives with our service capabilities and co-create a roadmap for your journey.
- We deliver, activate and test services, with a focus on minimising disruption for your organisation.
- We maintain optimal performance, availability and security, 24x7.

- And we continuously improve and mature in-line with your desired outcomes.

Our people follow Microsoft-aligned best practices that incorporate proven strategies for managing and optimising your organisation's technology estate. Our engagement process has been outlined in the image below:
