

**“Geldards offer
a seamless and
rounded service.”**

**Public Sector,
Legal 500**

Dispute Resolution & Litigation

We regularly advise public sector bodies on a wide range of contentious matters, from planning enforcement, property litigation, debt collection and judicial review to regulatory prosecutions and defence.

Governance & Monitoring Officer Support

We have extensive experience of advising local authorities in relation to vires and governance issues, including standards and conduct issues, sensitive investigations and inquiries. We have established a variety of corporate entities, partnerships, trading entities and joint ventures with appropriate governance arrangements. We have advised on the use and establishment of joint committees.

ICT, Data & Information Law

We are experienced in advising on the outsourcing of ICT, data and back-office services and shared services arrangements. We regularly advise on Freedom of Information Act and Data Protection issues and in relation to the General Data Protection Regulations.

Planning & Environment

Our work in planning law includes advice on a wide range of matters including the interpretation of planning permissions, permitted development rights and use classes, advising on planning provisions in development agreements and drafting section 106 Agreements.

We advise on call-ins and appeals including overseeing appointments of expert witnesses, preparing evidence and attending public inquiries. An example includes acting for a local authority on a major inquiry concerning several nationally significant wind farm applications.

Education

We have a diverse education practice including outsourcing contracts, academies and free schools, collaborative models, University Technical Colleges (UTCs), schools' collaborative procurement and ICT projects.

Leisure Services

We have advised on the creation of several leisure trusts, outsourcing of leisure management to external providers, including public-private partnership projects for redevelopment of leisure facilities. We have also advised public sector clients on town centre redevelopments with a significant leisure component, such as theatres and cinemas, sporting facilities and heritage centres.

Why Choose Geldards?

You need legal advisors who understand you, the services you commission and the unique political environment you operate in and who can apply their public sector experience to deliver the right results for you and your authority. Geldards have one of

the largest specialist teams in the country focused on providing services to the public sector with many of the team being recognised as experts in their field.

The reasons to choose Geldards are clear, we:

- 1 are public sector and local authority specialists**
- 2 understand the unique environment and challenges public bodies face**
- 3 take into consideration the critical and cross-cutting public law issues**
- 4 provide a complete legal service to support you where and when you need it**
- 5 value our reputation for working in partnership with our local authority clients**
- 6 deliver value for money and a value adding service**

What People Say

“Geldards have a pool of experienced, knowledgeable lawyers who have been immensely helpful to us on various local authority matters.”

Public Sector, Legal 500

“The team has incredible strength and breadth in advising the public sector. They understand law in Wales and the differences that now exist with the law of England and Wales.”

Public Sector, Legal 500

Project Highlights

Property, Projects & Regeneration

Advising on the **Becketwell Regeneration for Derby City Council** since 2017 regarding the implementation of its plans for redevelopment of this strategic city centre site that will include a proposed 3500 seat arena. Our work has included advice on all aspects of the land assembly and structures available to the Council for the subsequent redevelopment of the site including land disposal, joint venture arrangements (both corporate and contractual) and procurement of a developer. This included advising on the vires, procurement, subsidy control and LEP funding implications for each structure.

Planning & Environment

Advising in relation to the compulsory **purchase of land for a major waterfront regeneration** to provide 1000 new houses, leisure facilities, retail and a new school – this is a key element of the council's emerging replacement Local Development Plan. The Council has entered into a joint venture agreement with the owners and operators of an amusement park and have made a compulsory purchase order in respect of land at on the waterfront. The scheme also involves a statutory land appropriation process, and an application for a certificate under section 19 of the Acquisition of Land Act 1981 given the involvement of land used as open space.

Employment & HR

Advising a **local authority and a school governing body** as respondents in an employment tribunal case for alleged trade union detriment and whistleblowing. Geldards supported in drafting witness statements, collating additional documentary evidence, drafting and submitting an amended defence, drafting and submitting applications for a private hearing, restricted reporting orders and strike out of parts of the Claimant's further and better particulars, and producing a new bundle of documents for the reconvened hearing. We were successful in defending the claims with each of the claimant's claims being dismissed by the employment tribunal.

Governance & Monitoring Officer Support

Advising on arrangements for **local government reorganisation which will involve the creation of two unitary authorities**. Our specialist knowledge means we have been able to advise on all relevant issues, including governance (establishment of joint committees, elections, developing constitutions, consultation, adoption of plans and strategies, arrangements for shared services), employment (appointment of statutory officers, transfer of employees, communication with staff), finance (budgets and council tax), information management (publication scheme, designation of data protection officer), litigation (arrangements for outstanding claims), property (identifying assets, rights and liabilities, procuring any required licences, disposal of surplus land), branding and communications.

Contracts, Procurement & Income Generation

Advising a **major London Borough** the procurement of a JV partner for the roll out of broadband services across the region. For a term of 15 years, the supplier will operate the network, market services to internet service providers and mobile network operators and pass the funds to the JV Company.

This complex arrangement and project has included procurement and subsidy control, IT infrastructure and construction elements subject to the CDM regulations, and an outsourcing arrangement whereby the supplier operates the network and obtains customers on behalf of the JV Company.
